Review of manuscripts and speed of publication

All contributions submitted for publication are critically reviewed by at least two renowned experts in the field in order to ensure constant high quality of the journal. If both approve the paper it will be accepted for publication and forwarded to the Associate Editors (Prof. Dr. I. Blickstein and Prof. Dr. K. Vetter, for further editorial processing).

Abstracts of meetings can be published at page charges (estimates are available on request).

Guidelines for preparation of manuscripts

Terminology of papers should be clearly understandable even to nontheorists. Manuscripts must be written in clear and concise English and should be regarded as final texts. Illustrations must be submitted in original quality. No changes may be made at the proof state other than correction of printer's errors.

Language of publication

All articles appear in English/American.

Exclusive publication

Submission of a manuscript to *Journal of Perinatal Medicine* implies that the work described has not been published before

and is not under consideration for publication elsewhere. Once the manuscript is accepted, it must not be published elsewhere without the consent of the copyright holders.

The Editor must reserve the right to make changes in the layout of individual parts of the manuscript in order to achieve unity and clarity.

• Abstract

An abstract of no more than 200 words should be provided for all types of contributions. It would state the aims, results, and any conclusions drawn.

• Keywords

Up to ten keywords should in alphabetical order be provided on a separate sheet. If possible the keywords should be taken from the Medical Subject Headings of Index Medicus.

• Figures

A reference to each figure is to be given in the text, e.g. (Figure 9) A caption should be provided for each figure in a list of captions. The reproduction of colored figures (as well as black and white reproduction from colored figures) is possible: the cost of reproducing color photographs will be charged to the author at a rate of € 350.– for the first illustration and € 250.– for each subsequent illustration in one article.

• Tables

Tables and their captions should be also numbered in sequence with Arabic numerals (Table 1).

• Literature citations

Please note that the journal has changed its reference format to Vancouver style; further instructions at
<http://www.lib.monash.edu.au/tutorials/citing/vancouver.html>:

A. Reference within text:

References should be expressed as follows: Either as numbers [in square brackets] pertaining to the respective papers within the reference list (a) or under the author's name followed by the respective number in the reference list (b).

- a. "As several authors [4, 17, 21] have reported ..."
- b. "As Smith [14] and Windus [21] have reported ..."

B. Reference list:

The reference list containing all authors mentioned in the text, should be arranged in alphabetical order and numbered accordingly. The original title of every paper must be given in full and in the original language; abbreviations of periodical names should conform to those used in Index Medicus, National Library of Medicine. The style and punctuation of references should follow the format illustrated by the following examples:
