

# Contents

<b>Introduction</b> . . . . .	<b>1</b>
Current State of Research . . . . .	5
Open Questions in Folksonomy Research. . . . .	6
Notes on the Book's Structure. . . . .	8
Bibliography . . . . .	10
<b>Chapter 1 Collaborative Information Services</b> . . . . .	<b>13</b>
Web 2.0 vs Social Software vs Collaborative Information Services . . . . .	13
Social Bookmarking Services . . . . .	23
E-Commerce . . . . .	37
Commercial Information Services . . . . .	45
Music-Sharing Services . . . . .	49
Libraries 2.0 – Museums . . . . .	55
Photosharing Services . . . . .	69
Videosharing Services . . . . .	80
Social Networks. . . . .	88
Blogs and Blog Search Engines. . . . .	96
Games with a Purpose (GWAP) – Tagging Games . . . . .	100
Summary. . . . .	104
Bibliography . . . . .	107
<b>Chapter 2 Basic Terms in Knowledge Representation and Information Retrieval.</b> . . . . .	<b>119</b>
Introduction to Knowledge Representation. . . . .	119
Paradigmatic and Syntagmatic Relations . . . . .	124
Ontologies. . . . .	124
Thesauri . . . . .	125
Classification Systems . . . . .	126
Nomenclatures. . . . .	128
Text-Word Method . . . . .	128
Citation Indexing. . . . .	128
Knowledge Representation in the World Wide Web . . . . .	129
Introduction to Information Retrieval. . . . .	130
Relevance Distributions . . . . .	131
Retrieval Models . . . . .	133
Text Statistics . . . . .	134
Vector Space Model. . . . .	135
Probabilistic Model . . . . .	136
Link Topology – Kleinberg Algorithm and PageRank . . . . .	138
Information Linguistics – NLP . . . . .	139

Similarity Coefficients and Cluster Analysis. . . . .	142
Network Model . . . . .	144
Bibliography . . . . .	146
<b>Chapter 3 Knowledge Representation in Web 2.0: Folksonomies . . . . .</b>	<b>153</b>
Definition of the Term ‘Folksonomy’ . . . . .	153
Tags – Users – Resources . . . . .	157
Cognitive Skills . . . . .	161
Broad vs Narrow Folksonomies. . . . .	164
Collective Intelligence . . . . .	166
Tag Distributions . . . . .	170
Users’ Tagging Behavior . . . . .	184
Tag Categories. . . . .	196
Tag Recommender Systems . . . . .	204
Advantages and Disadvantages of Folksonomies in Knowledge Representation. . . . .	212
Problem-Solving and Structuring Endeavors in Folksonomies . . . . .	228
Tag Gardening in Knowledge Representation. . . . .	235
Traditional Methods of Knowledge Representation vs Folksonomies . . . . .	247
Outlook. . . . .	255
Bibliography . . . . .	262
<b>Chapter 4 Information Retrieval with Folksonomies . . . . .</b>	<b>283</b>
The Relation between Knowledge Representation and Information Retrieval . . . . .	285
Searching vs Browsing vs Retrieving. . . . .	287
Information Filters – Information Filtering – Collaborative Filtering . . . . .	293
Folksonomy-Based Recommender Systems in Information Retrieval . . . . .	299
Retrieval Effectiveness of Folksonomies . . . . .	310
Visualizations of Folksonomies. . . . .	314
Disadvantages of Folksonomies in Information Retrieval . . . . .	332
Query Tags as Indexing Tags . . . . .	336
Relevance Ranking in Folksonomies . . . . .	339
Power Tags . . . . .	363
Tag Gardening in Information Retrieval. . . . .	372
Outlook. . . . .	388
Bibliography . . . . .	393
<b>Conclusion . . . . .</b>	<b>411</b>
Bibliography . . . . .	418
Index of Names . . . . .	419
Subject Index. . . . .	431
